## **FOR IMMEDIATE RELEASE**

### **BERCHTOLD® Corporation's New OR Lights - Performance That Really Measures Up**

**Charleston, S.C.** --- Berchtold is excited to introduce the all-new CHROMOPHARE® E Series family of surgical lights. E Series anticipates your OR needs, with bigger, brighter, smoother spots that are cooler and use less energy. New and unique features reduce surgeon eye fatigue and permit near set and forget use. Berchtold offers a choice between standard and advanced lighting technologies, both of which feature low-risk commercially available lighting elements. All E Series lights use a future-ready suspension for plug & play upgrades and easy accommodation of future technologies.

Founded in 1922 in Tuttlingen, Germany, BERCHTOLD Corporation's North American headquarters are located in Charleston, SC. The company designs, manufactures and assembles products and technologies including SUPERSUITE® Custom Surgical Environments, CHROMOPHARE® Surgical Lights, TELETOM® Equipment Management Systems, and OPERON® Surgical Tables.
