

Upgrade to New BRITe™ Lighting Technology!

Newly available lighting technology can make your existing lights brighter than ever before, with no increase in heat, and no reduction in reliability.

Our new BRITe (Berchtold Reflective Illumination Technology) pioneers a new IR-reflective lighting system that produces more visible light from less power than any previous surgical light.

- D650*plus* from 130,00 lux maximum intensity to 160,000 lux.
- D530*plus* from 110,000 lux maximum intensity to 145,000 lux
- Same 150 watt bulb size as before
- Same 1000 hour bulb life as before

No light is brighter or more efficient than CHROMOPHARE with BRITe. With this cost-effective field upgrade, you can experience the latest in lighting technology, in the lights that you already own.
