

# ADVANCED LAPAROSCOPIC SURGERY

THE QUEENS MEDICAL CENTER, HONOLULU, HAWAII

## PROJECT SCOPE

- Renovation of 2 existing rooms for Advanced Laparoscopic surgery
- Working templates for a 10-room future OR expansion
- Connected to a conference room for visitor and student observation and surgeon interaction
- Abandon previous superstructure to accommodate proper placement of equipment

## DESIGN OBJECTIVES

- Utilize latest technology to create an environment with emphasis on patient safety, surgeon comfort and staff satisfaction
- Achieve effective equipment management and maximum video visualization
- Offer future expansion

“WHAT A CONTRAST TO OTHER PRODUCTS  
WE HAVE UTILIZED IN THE PAST.”

DAVID MENCH  
CLINICAL ENGINEER OF SURGERY/LASER SAFETY OFFICER
